

# keep a tight rein

GuestCentrix POS Inventory Management manages food and beverage inventory, purchases, storage and control over all the associated costs. Users can elect to automatically decrement stock levels from GuestCentrix POS transactions as they occur or at the close of business.

INVENTORY MANAGEMENT FEATURES:

- Stock Items categorised by Storage unit, Purchase unit and Usage unit
- Manual or barcode scanner stock take
- Purchase orders generated by 'reorder previous order', 'last order' or 'suggested reorder' (based on minimum par stock levels)
